

Sanaj Jadhav

Pune, Maharashtra | P: +91 8767554973 | sanajjadhav77@gmail.com | [LinkedIn](#) | [Portfolio](#)

Summary

Motivated and detail-oriented Information Technology graduate with a strong foundation in data analysis, visualization, and programming. Proficient in **Python** using libraries like **Pandas**, **NumPy**, and **Matplotlib** as well as business intelligence tools like **SQL**, **Power BI**, and **Tableau** to clean, analyze, and visualize data. Eager to leverage analytical and problem-solving skills to derive meaningful insights and support data-driven decision-making as a Data Analyst Fresher.

Technical Skills

Programming Languages:	Python(Pandas, NumPy), R, SQL, ReactJS, C/C++, JavaScript, HTML, CSS
Data Analysis & Visualization:	Exploratory Data Analysis (EDA), Matplotlib, Seaborn, Plotly
Databases & BI Tools:	MySQL, Firebase, Microsoft Excel, Power BI, Tableau
Tools & Platforms:	Streamlit, Git, GitHub, Figma

Projects

AutoEDA - Automated Exploratory Data Analysis App

[GitHub](#)

- Developed a Streamlit-based Python application that automates data preprocessing and exploratory data analysis from user-uploaded datasets.
- Utilized **Pandas**, **NumPy**, and **Plotly** to programmatically generate key statistics, data distributions, and smart visualizations.
- Designed the tool to generate exportable reports with actionable insights, significantly reducing manual analysis time.

Streaming Service Insights - Netflix Dashboard

[GitHub](#)

- Designed and developed an interactive KPI dashboard using Streamlit and Netflix dataset to track user engagement trends, content consumption patterns, and retention metrics.
- Processed and analyzed large-scale data with **Pandas** and **NumPy** to identify viewing trends and user behavior.
- Designed compelling visualizations with **Plotly** and **Matplotlib** to present key metrics, such as content consumption by genre, for data-driven recommendations.

Advanced Excel Call Centre Dashboard

[GitHub](#)

- Built an interactive **Excel** dashboard integrating call details and customer demographics via **Data Model**, enabling **dynamic KPI tracking** and detailed drill-down analysis.
- Applied **Power Query** for automated data cleaning, transformation, and standardization to ensure accuracy and consistency across 1,000 call records.
- Developed **business intelligence** visuals (Pivot Tables, Charts, Slicers) to analyze call trends, representative performance, customer satisfaction, and revenue patterns for decision-making.

Internships

Vionsys IT Solutions India Pvt. Ltd. - Pune, MH

Jun 2024 – Jul 2024

Web Developer

- Contributed to the development of client-specific web solutions, focusing on responsive UI design and performance optimization using ReactJS and Next.js.
- Collaborated with cross-functional teams to implement requested features, troubleshoot issues, and ensure on-time delivery of project milestones.
- Contributed to performance analysis of web applications by monitoring key metrics and user feedback.

Godavari Biorefineries Ltd. - Bagalkot, KA

Jun 2023 – Jul 2023

Geofencing Intern

- Mapped agricultural land and collected crop data using Google Earth and Excel for accurate crop area tracking.
- Conducted field visits and collected crop data, communicating in Hindi and Marathi with local farmers.
- Analyzed geographical data to identify optimal land usage patterns and improve crop yield prediction models.

Education

K.J. Somaiya Institute of Technology, Mumbai

2021 - 2025

Bachelor of Technology in Information Technology

Volunteer Services

National Service Scheme (NSS) - Volunteer

2022 - 2024

- Participated in social initiatives and community service, strengthening teamwork, leadership, and organizational skills.
